Work Experience

Questrade Financial Group, Toronto, ON

Associate Product Manager | Intern, Growth Portfolio

May 2026 - August 2026

- Supported unreleased initiatives on the Alternative Investments team by scoping concepts, building prototypes, writing PRDs, and working directly with external vendors to build features.
- Built agentic document hubs org-wide that roll up weekly updates to leadership and aggregate information from meeting notes, Jira tickets, Slack channels, and Superhuman docs to gain a holistic picture of team progress.
- Ran user interviews to gain valuable insights toward the Quest Metals GTM plan and inform product direction.
- Owned Quest Metals as an independent project; managed engineering and design to build physical gold withdrawals.

Pines Landscaping, Clarksburg, ON

Crew Foreman

April - August 2024, May - August 2025

- Supervised sub-contractors and teams of 2-8 crew members on residential and commercial landscaping projects, valued between \$25k-\$500k, with durations ranging from 2 weeks to 3 months.
- Resolved issues efficiently and effectively while acting as the primary contact for clients and project managers throughout the duration of the projects.
- Organized and implemented detailed project strategy to ensure timely completion of tasks while communicating daily requirements to crew members, aligning priorities, protocols, and client expectations.
- Trained new hires in machine operation, tool safety, and site procedures to onboard efficiently.

Lead Hand

April 2023 - March 2024

- Supported foreman in overseeing tasks and daily operation, while helping to manage jobsite coordination.
- Operated heavy equipment machinery to execute tasks such as grading, trenching, and foundational prep.

Landscape Technician

January 2022 - October 2022

- Quickly learned machinery, tools, techniques, and landscaping processes regularly taking initiative on tasks.

Education

Queen's University, Kingston, ON

BAH in Applied Economics | Minor in Environmental Studies

April 2027

- Specializing in financial modeling and statistical inference applied to finance, risk management, and econometrics.
- Excelled in quantitative coursework, notably Statistics, earning an A+ to demonstrate proficiency in precise modeling.
- Researched and analyzed environmental policy frameworks through an economic lens to write papers on policy adaptation, regulation, and sustainable development.

Certificate in Business, Smith School of Business

April 2027

- Pursuing a business education concurrently with my Bachelor's degree, to complement technical economic theory with practical financial frameworks used towards CAPM and DCF models.
- Studying Finance, Financial Accounting, Marketing, and Organizational Behavior to develop skills in corporate analysis.

Financial & Valuation Modeling Certification Program, Wall Street Prep, Online Certificate

January 2026

- Completed an extracurricular course on 3-Statement Modeling, DCF, Trading and Transaction Comps, M&A and LBO.

Extracurricular Experience

President | Queen's Climbing Club, Queen's University, Kingston, ON

April 2025 - Present
